

## A jolly jaunt into the country

Insects are ever popular at the centre. The children often spend hours searching about the centre for spiders and other creepy crawlies. Sadly they can be few and far between so we decided to go into the country.

We did find bugs galore. We lifted old logs, bricks and scabbled about in an overgrown shade house, where we found all sorts of insects for our terrarium.

We also found an old tractor called Pedro, that we all took turns at "driving". Pretend of course!
